A Network Competition for Colleges

- The result of close collaboration with other Academies.
  - One important way to promote our University courses and maintain a close contact with "our" Academies and their students.
    - A one-day competition on Campus.
- Started 2013.
- Annual competition in configuring and trubleshooting a computer network. All within the framework of the CCNA curriculum.

Team Competition

The future of NC

- Arrange local qualifying competitions

- Different level of difficulty (ICND1,ICND2)

- Use real hardware and NetLab NDG

- Organize an exhibition from different companies

- More interaction between the contestans and spectators

- Live streaming

The future of NC

- The real challenge.....

Convince my boss to give me more time and money to develop this further
